

Skytec 173.033 portable amplifier

Basic instructions:

Plug radiomic receiver into input socket

Connect to mains & switch on

Use volume control to adjust to required sound level

KEEP 'OVERDRIVE' CONTROL AT MINIMUM and overdrive switch in the 'out' position

Adjust 'bass', 'middle' & 'treble' controls to sound required - around 12 o'clock

Fit foam windshield to headband microphone if sound is too 'breathy'.
